

Loddon Mallee Waste and Resource Recovery Group - Strategic Plan 2017-2020 and WRRIP to 2026

Context and challenges. The Region sits below the Victorian regional average for diversion of waste from landfill in household kerbside collections. Our strategy includes all who contribute waste and recycling (local councils, industry, business and households) so that we work together to improve the productivity & viability of our region.

Our Vision: Reduce waste to landfill through the use of innovative and sustainable solutions.

Our 2020 targets for waste from household kerbside collections:

Our 3 Themes, 7 Priority Actions and Outcomes (2016-2026)
